Srinivas Yadav

Frontend Developer · React.js

Hyderabad, India | t.sriyadav123@gmail.com | linkedin.com/in/srinivas-yadav-16850622b

SUMMARY

Frontend Developer with 2 years of experience developing data-driven React.js and JavaScript applications for railway operations and research teams. Experienced in real-time dashboards, data visualisation, REST API integration and responsive UI development, with hands-on experience building tablet applications in Qt Quick (QML), PySide6 and Python.

EXPERIENCE

Frontend Developer — Mindcoin Services Pvt Ltd **Current Role**

- Develop and maintain production React.js applications for railway operations, including locomotive performance analytics, live trip analysis and real-time monitoring.
- Experienced in building real-time dashboards with live train tracking, GPS-based route views and interactive charts.
- Design and develop touch-based tablet applications in Qt Quick (QML) with PySide6 and Python, including real-time GPS dashboards.
- Integrate REST APIs end to end and handle large operational datasets for analytics views, reports and exports.
- Build reusable components and responsive layouts that work across desktop, tablet and mobile screens.

KEY PROJECTS

Gatiyantra — Locomotive performance analytics platform (gatiyantra.com)

FogPASS Web — Live trip analysis with real-time train tracking for railway fog safety

FogPASS Tablet — Real-time GPS dashboard for loco pilots

Pace Eye — Real-time KPI monitoring dashboard

SFR Analysis — Signal-failure reporting with geotagging and exports

TECHNICAL SKILLS

Core	React.js, JavaScript (ES6+), Qt Quick (QML), PySide6, Python
Web & UI	HTML5, CSS3, Ant Design, ECharts, Bootstrap, Responsive Design
Integration	REST APIs, JSON, Axios / Fetch
Tools	Git, GitHub, VS Code, Chrome DevTools
Learning	TypeScript, Next.js

EDUCATION

Bachelor of Technology (B.Tech), Civil Engineering
Teegala Krishna Reddy Engineering College, affiliated to JNTU Hyderabad
