Srinivas Yadav

Frontend Developer · React.js

Hyderabad, India | t.sriyadav123@gmail.com | linkedin.com/in/srinivas-yadav-16850622b | github.com/SrinivasTelagarla | Portfolio: srinivastelagarla.github.io

SUMMARY

Frontend Developer with 2 years of experience building live, data-heavy React.js and JavaScript applications for railway operations analytics. Skilled in data visualisation with ECharts and Ant Design tables, REST API integration, reusable components and responsive UI. Also built a production tablet app with Qt Quick (QML) and PySide6. Comfortable owning features from API to polished interface.

EXPERIENCE

Frontend Developer — Mindcoin Services Pvt Ltd **Current Role**

- Build and maintain the React.js frontend of **Gatiyantra**, a live locomotive analytics platform that scores crew and train performance on over-speed, braking quality and section-wise adherence.
- Built **FogPASS live trip analysis** in React.js and ECharts for the railway fog-safety GPS system, tracking running trains in real time, and its **tablet app** UI in Qt Quick (QML) with PySide6 (Python) logic.
- Developed **Pace Eye**, a real-time monitoring dashboard for operational KPIs with analytics views and downloadable reports.
- Built **SFR**, a signal-failure reporting app with live dashboards, geotagging and exportable reports.
- Created **Field Diary**, a web app for scientists to log observations and track experiments and fieldwork.
- Visualised large operational datasets using ECharts and Ant Design tables; integrated REST APIs end to end.
- Built reusable components and responsive layouts shared across 5 production web applications.

KEY PROJECTS

Gatiyantra — gatiyantra.com · React.js, JavaScript, ECharts, REST APIs

FogPASS (Web + Tablet) — Live trip analysis for railway fog safety · React.js, JavaScript, ECharts; Qt Quick (QML), PySide6

Pace Eye — Real-time KPI monitoring · React.js, JavaScript, Ant Design

SFR Analysis — Signal-failure tracking with geotagging · React.js, JavaScript

Portfolio — Responsive personal site · HTML5, CSS3, JavaScript

TECHNICAL SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3
Frameworks & UI	React.js, Ant Design, ECharts, Bootstrap
Integration	REST APIs, JSON, Axios / Fetch
Desktop / Tablet	Qt Quick (QML), PySide6, Python (working knowledge)
Tools	Git, GitHub, VS Code, Chrome DevTools
Learning	TypeScript, Next.js

EDUCATION

Bachelor of Technology (B.Tech), Civil Engineering
Teegala Krishna Reddy Engineering College, affiliated to JNTU Hyderabad
